

GRAPEVINE MORPHOLOGY

Visible inflorescences
Inflorescencias visibles
Infiorescenze visibili

Shoot with extended leaves
Brote con hojas alargadas
Germoglio con foglie distese

Shoot apex
Cima del brote
Apice del germoglio

Shoot with a lateral
Pampano con feminella
Tralcio erbaceo con femminella

Alternate bunches
Racimos alternados
Grappoli alterni

Young tendril
Zarcillo trifurcado
Viticcio trifido

Mature tendril
Zarcillo lignificado
Viticcio lignificato

The tendrils have the same origin as clusters
Los zarcillos son homólogos a los racimos
I viticci sono omologhi ai grappoli

Entire leaf
Hoja entera
Foglia intera

Three lobed leaf
Hoja trilobulada
Foglia trilobata

Five lobed leaf
Hoja pentalobulada
Foglia pentalobata

Shape of petiole sinus
Forma del seno peciolar
Forma del seno peziolare

Open brace
Muy abierto
A graffia rientrante

Protruding brace
A graffia sporgente

V-shaped
En V
A V

V-shaped with parallel edges
En V con bordes paralelos
A V con bordi paralleli

Open U-shaped
En U abierta
Ad U aperto

Untrimmed
Cortado
Sguamito

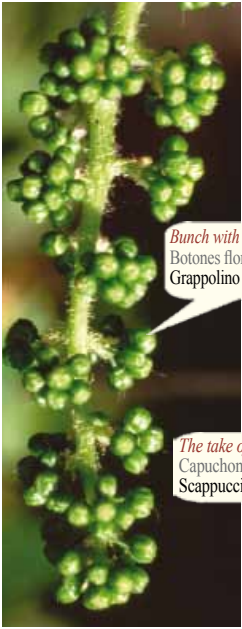

Lyre shaped
En lira
A lira

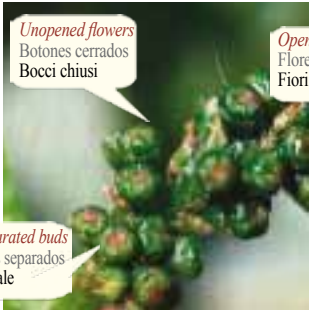

Closed
Cerrado
Chiuso

Closed with overlapping lobes
Cerrado con lobulos superpuestos
Chiuso con bordi sovrapposti

Bunch with separated buds
Botones florales separados
Grappolino florale

Unopened flowers
Botones cerrados
Bocci chiusi

Open flowers
Flores abiertas
Fiori aperti
